A draft is a process used in some countries and sports to allocate certain players to teams. In a draft, teams take turns selecting from a pool of eligible players. The draft has only been used in times of war and not for mandatory military service during peace time. Here is a brief overview of how the draft system works and all the procedures that have to fall into place to open the draft for involuntary military service. No the draft will never come back, The military is working on technology that will make less troops on the ground the norm. Politicians will always use it around election time to get votes. A player can refuse to play for the team that drafts him. But that team owns the signing rights to him for 1 year. If a trade isn't worked out to put the guy on a team he prefers then he's not going to play in the NFL that year., Never Can Tell When It Comes To The Draft (Sports).
