

Download Pleasures Of The Telescope

2019-April-16 Can You Hear Me? Un viaggio nel tempo con i messaggeri dell'Universo. On 6 May 2019, the Bologna community is invited to partake in an evening of cosmic and Earthly pleasures at the public event of the Cherenkov Telescope Array's First Science Symposium, which is taking place the same week at Teatro Duse in Bologna. "If the pure and elevated pleasure to be derived from the possession and use of a good telescope of three, four, five, or six inches aperture were generally known, I am certain that no instrument of science would be more commonly found in the homes of intelligent people."1) Takahashi FC76 (2nd Review) 3/10/14 (76 mm f/8 apochromatic doublet fluorite refractor, OTA only, NLA) A local club member has a saying that goes something like this: "Ed, if something interesting is going to happen to someone, it will happen to you." "If the pure and elevated pleasure to be derived from the possession and use of a good telescope...were generally known, I am certain that no instrument of science would be more commonly found in the homes of intelligent people.", Pleasures Of The Telescope.
