What would happen if every person on Earth adopted a vegan diet – without milk, meat, honey, or any other animal-sourced food? It's a (very) hypothetical question, but environmental writer Paul Allen argues that it's more relevant than ever. This is What Would Happen If, a close examination of mundane hypothetical situations. Each week, we look at something that you could do but probably never would, and take it to its logical endpoint. What if the Spinning Stops Suddenly? First off, rest assured that this is not going to happen, at least not for a few billion years. However, just for the sake of curiosity, what if...?(Inside Science TV) -- The moon -- it can appear full, shining like a beacon in the night or just a sliver of a nightlight. Still, it's always there., What Would Happen If.
