

Download Food Addiction And Obesity Evidence From Bench To Bedside (report)

A food addiction or eating addiction is a behavioral addiction that is characterized [jargon] by the compulsive consumption of palatable (e.g., high fat and high sugar) foods which markedly activate the reward system in humans and other animals despite adverse consequences. While the therapeutic effects of cannabinoids are more widely acknowledged, we know a part of you may still be hesitant. Unfortunately, there's still a slight stigma attached to the use of cannabinoids, and you may not be convinced it's right for you or your family. Latest breaking news, including politics, crime and celebrity. Find stories, updates and expert opinion. Nutrients, an international, peer-reviewed Open Access journal., Food Addiction And Obesity Evidence From Bench To Bedside (report).
