While the Blue Book (as it was called by students) used to be the must-have source for SAT prep, The Official SAT Study Guide, 2020 Edition, is mostly not worth purchasing. The book in its entirety — including its eight practice tests — is available for free online, so don't waste your money buying the book. "The Official SAT Study Guide" is the only book that features official SAT practice tests created by the test maker. It's packed with the information students need to get ready for the exam. The 2018 edition of The Official SAT Study Guide doubles the number of official SAT practice tests to eight - all of them created by the test maker. As part of the College Board's commitment to transparency, all practice tests are available on the College Board's website, but The Official SAT Study This is the book to have for the latest revision of the SAT - which has changed quite a bit since March 2016 - because the practice includes all official test questions from the people who make the test (now available in paperback)., Is The Official Sat Study Guide A Good Book.
