INTRODUCTION. Water towers in New York are everywhere. Just look up and you'll notice round, wooden structures on the top of New York buildings that look like ancient relics from the past that were accidentally left there. New York City's skyline is dotted with wooden water towers that are easy to mistake for vanishing relics of the bygone eras of seltzer bottles and street gas lamps. For over 100 years, water towers have been a seamless part of New York City's skyline. So seamless, in fact, they often go unnoticed, usually overshadowed by their glassy supertall neighbors ... From the city sidewalks, it is easy to forget about the thousands of water towers perched overhead. These little hat-like embellishments are a staple of the New York City skyline; we can spot more ..., New York Water Towers.
