

Download One Hour Expert Creating Microsoft Exchange Server 2010 User Mailboxes

By Doug Lowe . In previous versions of Exchange, you created network user mailboxes using Active Directory Users and Computers (ADUC). With Exchange 2010, however, Microsoft has removed the Exchange management features of ADUC. One of the tasks that you will be performing on a standard basis with Exchange Server, is creating User Mailbox for your users. There are four types of Mailboxes; User, Room, Equipment, and Linked Mailboxes. This video explains how to use the Exchange Management Console (EMC) to create a user mailbox.
