

Download Pervasive Information Systems

Pervasive informatics is the study of how information affects interactions with the built environments they occupy. The term and concept were initially introduced by Professor Kecheng Liu during a keynote speech at the SOLI 2008 international conference. In Journal of Management Information Systems, Special Edition on Pervasive Information Systems (volume editors Panos ©1 ADVANCED TOPICS ON INFORMATION SYSTEMS B PERVASIVE INFORMATION SYSTEMS PERVASIVE DATA MANAGEMENT Prof. Fabio A.
